Projects

Burger Menu App | github.com/jenniferdaeumler/gt-mvc-burger-homework-13 | sleepy-anchorage-81195.herokuapp.com
- This app is a burger logger utilizing MySQL, Node, Express, Handlebars and a homemade ORM (yum!). MVC design pattern was used. Node and MySQL used to query and route data in the app, and Handlebars to generate the HTML.
- Design and Development of front and back-end functionality
- MySQL, Node, Express, Handlebars, HTML, & CSS. Followed MVC format.

Maestro App | github.com/jenniferdaeumler/gt-project-2 | secure-shelf-55938.herokuapp.com
- This app connects teachers and parents-as-teacher to educators across the country for live, remote, and customized lessons.
- Design elements, logo, back-end development (API routes), front-end JS and ajax calls.
- MySQL, Node, Express, Handlebars, HTML, CSS, Heroku, CRUD, Passport, & Bcrypt.

Password Generator App | github.com/jenniferdaeumler/gt-password-generator-homework-03 | jenniferdaeumler.github.io/gt-password-generator-homework-03
- This app generates a random password based on user-selected criteria and runs in the browser. The JavaScript powers dynamic updates for the HTML and CSS.
- Design and development of front-end development.
- JavaScript, HTML, & CSS.

Experience

Math Teacher   2017-2020
Northwest R1   Saint Louis, MO
